- English (Advanced)
- Arabic (Native)
- Hebrew (Advanced)

SUMMARY

As a full-stack web developer, I am skilled in both front-end and back-end development, with a keen eye for user experience and a passion for creating dynamic, responsive websites and applications. My expertise includes a range of programming languages, frameworks, and tools, including HTML, CSS, JavaScript, React, Node.js, and MongoDB, among others. With a solid foundation in computer science principles and an ability to work collaboratively in agile development environments, I am dedicated to delivering high quality, scalable solutions that meet both client and end-user needs.

EDUCATION
